but I would even recommend this for anyone who is or is about to ...

By T. Selley

Very readable as textbooks go. Also well organized and engaging. This was required for my Adolescent Psychology class for my MA in Secondary Education, but I would even recommend this for anyone who is or is about to be raising teenagers. I bought my copy in Very Good condition, but it might as well have been labeled NEW. It looked as though it had never been read. One of those college textbooks you can see yourself turning to again and again throughout your life.
