El éxito de cualquier negocio está ligado a muchos factores. Sin embargo, para determinados tipos de negocios hay un factor que prima sobre los demás: la localización. En Internet sucede lo mismo. El principal motivo por el cual se le da tanta importancia a una buena localización es que en las calles alejadas transitan muchas menos personas que en aquellas cercanas a las zonas céntricas. La lejanía en Internet está mucho más cerca del centro de lo que ocurre en una ciudad, debido a que aparecer en un buscador a partir de la tercera página ya es considerado extra-radio. Sin embargo, en internet hay tantas calles principales como criterios de búsqueda se introduzcan. Por tal motivo, tener un buen posicionamiento en buscadores puede afectar considerablemente los resultados de un negocio. Y el posicionamiento web significa aparecer en las primeras páginas de los buscadores con aquellos términos que son realmente relevantes para el negocio y que retornan un tráfico altamente calificado.
