Most helpful customer reviews

10 of 10 people found the following review helpful.

Excellent teaching text

By Christine Martin

Have used this text (2nd and now 3rd editions) to teach business ethics classes at the graduate and undergraduate levels for several years. It is well written and popular with students. Case studies represent the spectrum of ethics issues found in business today. The foundational ethics theory is clearly articulated, appropriate and sufficient.

7 of 7 people found the following review helpful.

Expensive Paperback

By D.I.S.C.R.E.E.T.

90 something bucks for a paperback in okay condition? Really? And "they" expect us to conduct ourselves in an ethical manner, please...Somewhere along the supply chain, someone needs to take a pay cut.

6 of 7 people found the following review helpful.

Pure hell to read from front to back - bring coffee!

By Chris E.

This was a required text for my business ethics course and has to be the worst textbook that I've ever had the unfortunate task of reading. In five weeks, I had to read this book from cover to cover and it was an absolute bore. Small type, wordy, and inferior to even my business law and accounting textbooks.

While the subject matter is important, this book could stand a serious facelift.
