Witty.Educational. And a beautiful feel in your hands. Try it.

By Elizabeth G. Lambird

I wouldn't have gone out of my way to purchase a book on wine... but a friend recommended it and I'm so glad he did. Very well done. The author's humor comes through in spades; while he takes the subject of purchasing and drinking wine seriously, he doesn't take himself too seriously. I felt like I was getting straight talk. At last, I don't feel like I have to have 10 different wine glasses and know which one to use with which wine?! The art and infographics make it very readable and the paper choice makes it a joy to flip through. I'm actually considering giving it as a gift which is big because I'm busy trying to decrease the number of books in my own home. But this one is a pleasure to peruse --- you could read a page or two at a time and come back to it; or use it as a reference at other times. Try it. I think you'll enjoy --- and learn while you do.

Thankfully, this book does what it says.

By Wes Marshall

Mr. Oldman has so much information to offer, and this book is like having the opportunity to have a personal conversation and grill him with everything you ever wanted to know. Many of us have seen him at the myriad food festivals he attends, but the problem is when you go see him, he is so inundated by beautiful screaming women (is this guy the fifth Beatle?) that you can't get anywhere near him to ask questions. Now we have the book so that between this and the opportunities to see him at festivals, you'll get a lifetime worth of great wine information.

Oldman can probably afford drink like a billionaire. I can't. Thankfully, this book does what it says.

Great Read and Useful Advice for finding joy in all types and aspects of wine

By Amazon Customer

First, this book is a great read, cover-to-cover. If I didn't drink wine (I do), it would still be a joy to read. The observations, insights and stories are worth the price of admission, even if the reader does not plan to put the book's knowledge to its intended use.

Second, the book is a guide to enjoying wine and life. There is a whole world of wine between high-end burgundy and wine with "lipstick, cupcakes or feet" on the label and Oldman urges his readers to explore and enjoy it. In Oldman's world, wine is not merely consumed, it is experienced and his book ensures the entire process can be savored.

Third, Oldman arms the unwary with the tools necessary to enjoy wine and the winebuying experience. Oldman gives the reader tips to assess where a sommelier's allegiances lie and then urges the reader to press the sommelier to be an engaged guide to wines on and off the list.
