No spying required.

By Frequent Shopper

I purchased this book from Amazon, without being able to view any of the pictures inside. The title led me to believe my daughter would be searching for letters amid a jumble of other pictures, (like a "Where's Waldo" for the alphabet!) but sadly, that is not the case. Each page features only two jumbo-sized letters, and the rhyming prose discusses the designs or patterns featured on the letters. This is NOT a book that requires your little one to play "I spy" or to hunt for letters. This is just another book about letters for parents to read to their kids. While there's certainly nothing wrong with reading books to children, I feel this book is purposefully deceptive in its marketing. Thus, the low rating.

8 of 8 people found the following review helpful.

I spy a letter sitting right in front of me....

By Shoptan

Sadly, there is nothing to spy in this book. Nothing is hidden, the letters are just right there. Just sitting there

on a blank, white page. No searching whatsoever.

The age range for this book is listed as 3-5. Wrong. My 2-year old isn't even amused.

So, if you are looking for a letter book, I do think this one is nice, but don't buy this if you are expecting the typical "I Spy" format.

10 of 11 people found the following review helpful.

too easy

By Shealy

My 2 year old loves the classic I spy with the cluttered pages. These pages are too sparse, with only 3 to 5 large items per page so my 2 year was easily bored.
