Very interesting

By jennifer

I had been researching this particular topic and this is an excellent read about male escorts. The author presents her conclusions well and the men she interviewed gave insightful opinions on how many years on average their career lasts, what type of personalities are drawn to this occupation, etc. I've read several books

written by researchers but this one is the most readable by far.

Riveting!

By Melanie J. Simms

Riveting and intimate look into the topic matter. I would highly recommend this book for anyone seeking a genuine introspective look into the lives of male prostitution, whether it be for personal interest or research.

Very good book

By Elcio

The book bring an important interpretation in its psychological aspects about the universe of male prostitution, but it needs to explore further the relationship between male prostitutes and clients.
