The quality of the book is excellent and I strongly recommend it

By New Horizon Academy

This is very mixed review. The quality of the book is excellent and I strongly recommend it. The wording in the ad is EXTREMELY MISLEADING. THERE IS NO CD, WEB SITE, OR POWERPOINT SLIDES that accompany this book. You need to pay \$130 additional for those, but there is no link to them - you have to hunt.

Here is the wording in question. "An outstanding supplement package that includes a robust companion website, ExamView Assessment Suite CD, PowerPoint lecture slides, detailed lesson plans, and a variety of enrichment labs and activities, will minimize your preparation time." One would think they are part of the package but they are not.

Buyer beware.
