Sweet Romance

By sjoyce

Even though I received this as an ARC for an honest review, I would have gladly paid for this book. I read it in one sitting. It was like an extremely light dessert. Such a sweet romance almost seemed too good to be true. The sex wasn't over the top but added to the story. Alex and Paris, were made for each other. It did seem as if his parents gave in too quickly but perhaps they knew that Alex would not give in. Whitney and her

parents were too much. I wouldn't mind reading a sequel to this book. If you're into romance books, this is one for you.

A Wonderful Love Story!

By Barbara J Walker

I enjoyed this book so much! I laughed and then I cried and then I got mad and then I laughed and cried again! My son and granddaughter said ' That must be one Good book you're reading!' I could only nod my head and Smile. Thank you Miami for bringing Alex Andre and Paris into my life. I fell in love with the entire Royal Family and truly appreciated the way that everyone treated Paris when she arrived in Dalvana. This story will forever be one of my favorites! Now I'm going to wait for Joseph and Mathias' love stories! (Just a hint)

Paris in Paris doing Parisian things

By V. Rena

I received this book as an ARC in return for my honest review. This is not your ordinary Cinderella story. It's Cinderella and Prince Charming to the 10th power. I love how Paris and Alex met, and they seemed to have chemistry from the start. The relationship seemed a little rushed, but it worked for them. Not that I would know, but as they say...when you know you know. I love the simplicity in their romance like walking along the river side, the garden, the cafe and bakeries, etc. They took the time to get to know each other during these outing. I hate that Alex didn't truthfully tell her who he was from the beginning, but I can understand his reasons for discreet and privacy. Sometimes, you just want "me time" and not stress about your surrounding. Paris gave Alex the chance to act his age and to indulge in some of the activities his brothers were able to get away with. For once in his life and her life, they were not thinking with their heads but with their hearts. In the end, true love wins out every time. I loved how his royal family embraced Paris immediately, and I'm glad that her family attended her wedding. I'm also proud that she will still pursue her career despite her new found status. I would have done more to Whitney then just humiliate her in public. She deserved a good ole arse whooping. Nevertheless, she's someone else's problem. I really enjoyed reading this book.
