Fans of the show are going to totally dig this!

By ScoreTheFilm

It's a good sized book (for its size) that's cover to cover with great, full-color photos and images, all 128 pages worth (the description is incorrect in that regard). There are large sections dedicated to the Power Rangers (and friends), Nighlok and other foes, the PR battle modes, PR weapons, power discs, PR Zords and PR epic battles. Like the show the book is geared toward children. I'm going to a comic-con-ish convention soon where one of the rangers will be among the guests. This book is going to get signed in a few places and I'll do up something special in a frame for my nieces and nephews who are huge fans of the show.
