I expected way better :/

By abigailismymuse

I love Taylor Swift, and I love 1989, that's not the problem with this book. The problem is, and it could be because of the songs and how they're produced to sound on her album, but that most of these arrangements are either super bland, or super simple. I'm more of an advanced pianist, but I love playing all her other songbooks that she's put out, and this one doesn't measure up very well. There are a few standouts however, Welcome to New York, Blank Space, Style, I Know Places, and Clean aren't too bad. But i was really kind of disappointed on the other arrangements and how they sound. I think I'd still buy this, but her last album book was a lot better :/See all 1 customer reviews...
