The perfect Mother's Day gift

By East Coast Reader

This is such a readable book. I just bought three copies for my mom and sister and mother-in-law. The perfect Mother's Day gift. There are so many amazing stories. It's not all about gossip either. There's a story about 9/11 and how there was a barbecue planned at the White House and there were so many tables and chairs set out for the event. Since the White House was a target, they had to evacuate all of the staff. People were running out of the White House to safety. They were terrified, as I would be too! One of the staff members was so busy working downstairs at his job that he didn't hear the Secret Service evacuating everyone. He came upstairs and wondered where everyone had gone. Meanwhile the head chef and head usher decided to stay on the grounds of the WH and take down all of those chairs and tables because if they didn't do it no one else would. They spent all morning during 9/11 doing their duties.

What's really incredible about this book is the dedication and service these men and women have made to

serving not just the first families, but the institution of the White House. There are some families who have generations of family members who have served there. One family had like 5 or 6 family members working at the White House. They all loved and honored the traditions there and they all served no matter who got elected.

One other thing I loved: You don't realize it until you read just how complicated it is for the first family to move into the White House. One family moves out with moving trucks, while the new family moves in -- all while the inauguration is taking place. It's so cool. I love this book and recommend it to anyone who has an interest in the presidency or the institution of the WH.

"Eight-star hotel"

By carolyn c porter

The Residence is an informative and well-written book. I did not expect it to be "literature", and it wasn't, but it was entertaining. I liked the physical descriptions of "the house" as well as the numbers and variety of persons needed to keep it up. Part of the services like having the first family's preferred toothpaste(s) out and ready each evening - that reminded me of my reading about England's Royal Family. We are told the queen sleeps each night on sheets that have been washed exactly four times! I am impressed with the fidelity and loyalty of the White House staff and at the same time perplexed at what feels like a bit much to an average person like myself. The author well-researched her information, but just due to passing years and availability of the staff, we are pretty much limited to the Carters, Regans, Bushes (2), Clintons, and Obamas. For the reason I just mentioned, Clintons and Obamas have more coverage. The Residence is exactly what I expected. It is not a tell-all book, but a collection of fond remembrances interspersed with architectural, floral, photographic, and food events.

A Redundant Not Reveal All

By E. Huinda

Several reviewers who didn't really care for this book have commented that if one has never before read a "White House book" then this would probably be a good one for them. Well, I am one of these first timers and I wasn't all that impressed either. The writing is rather repetitive. The theme of the staff's loyalty and selflessness runs very heavily throughout every single anecdote. I realize that the author and the staff are trying to balance a fine line of remaining respectful to the first families while also striving to provide enough detail to catch the readers' attention, but I found the writing to be dry and the saintliness of the staff to be a smidgeon tiresome. Really, the book suffers from a lack of true character development, whether with the members of the first families or the White House maids and butlers (yes, even biographies benefit from character development), with the possible exception of the LBJ coverage, which provided some of the most interesting material in the book. This book wasn't quite the page turner I had hoped it would be.
