A Great Read and Resource

By Dani

This book is an easy read and has many practical applications. It uses a great deal of scripture to establish a Biblical precedent for supernatural phenomena. The chapters are fairly short, and most of them end with an "Activation" activity that allows the reader to stop and apply what has been learned. I highly recommend this book for all who desire to develop ears that hear, eyes that see, and a heart that understands!

61 of 65 people found the following review helpful.

Great Book!

By Lisa Dynes

This is a great book! It is not mystical or spooky. It is a practical discussion of what is missing from modern day Christianity. We read great stories of faith, healing and prophecy in the bible only to find these missing from today's modern day churches. Did we become Christ followers to have a Sunday routine or to see and experience the real power of God's Love? This book will give you some things to think about. Perhaps our scientific approach to life does not fit the approach we need to use when seeking God. Read the book...

Putting it into Practise

By lim

I bought this as a gift for my wife and she said that she liked it. It brought confirmation about somethings she had already experienced, added new information and the activations at the end of each chapter were practical, and helpful. It didn't hurt that it was an easy to read book either.
