Easily the best ongoing series available in my honest opinion!

By Dustin Evans

Easily the best ongoing series available in my honest opinion. This series (Graphic Novels) is consistently throwing jabs at your heart and mind. You will NOT regret purchasing this, just make sure you start from Volume 1. There is honestly not a bad volume in the series and the story and pace never slows gets boring or repeats itself. It also will not let go of your heart or mind. Many times you will find yourself thinking to yourself, asking..."What would I do?"

If you or a friend consider yourselves to be even the slightest bit of a "fan" of either the AMC TV series "The Walking Dead" or "Fear The Walking Dead" you will not want to miss reading this ongoing series. It is a very easy read, yet not "dumb'ed down" if you will, in the least. I can't put it down. Be aware though, just like the TV series, this is NOT for young readers.

Robert Kirkman...What a plot, what a story...pure genius!

Wow! Spoilers Sweeties.

Negen is training Rick, grooming him to be just like him! Not as much of a cliffhanger as the last but lots up in the air. I think Alpha is predictable. Looking forward to the next. I think Dwight will recognize Negen in Rick's new tactics. If so, I'll keep reading.

Complete the entire series

I'm addicted to all of these. They are brilliantly written and digitized. You really can't go wrong with the way Amazon gets the digital copy to you and the quality of the digital product is impeccable.

As for the actual document is almost exactly if not better than the real thing. The only reason I can see to buy the physical copy would be to keep on your bookshelf.
